DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The IDS filed 18 December 2006 and considered 22 January 2007 does not affect the patentability established prior to the filing of the RCE. Particularly, none of the prior art cited in the IDS disclose or suggest a fan comprising a fan blade directly attached to and extending from the motor housing and a stabilizer extending from the motor housing of the fan and configured to counterbalance the blade of the fan.

The above statements have been made to clarify the Reasons for Allowance indicated in the Notice of Allowance dated 24 January 2007.
